Standard Notes: - Represents zero.
individual companies. (NA) Not available.
n.e.c. Not elsewhere classified.

(D) Withheld to avoid disclosing figures for
(X) Not applicable.

In computing these ratios contract employment serving the establishment is excluded. The cost of contract work expressed as a percent of payroll for 1963 was:
For bentonite, 33 percent; for fire clay, 20 percent; for fullers earth, 26 percent; for kaolin and ball clay, 4 percent; for feldspar, 31 percent; and for clay and related minerals, n.e.c., 11 percent.

Represents establishments with zero or negative value added; establishments with no employees; and, for number of employees and payroll, figures for separately reported central offices and related facilities.

Not shown since the cost of supplies, fuels, purchased electric energy, contract work, and purchased machinery installed exceeds value of shipments and receipts plus capital expenditures.
